Quite a heavy breeze very early in the morning but a head wind. Started on the rest of our trip, the last days journey, about 6. A.M. Not as cool as yesterday but we didn't put on much clothing & stood it fairly well. Read from the Guide to Ruins - one reading, a free translation, while the other looked up words. No English this trip and our French is improving. Reached the mouth of Siem Reap River about 6. All packed to go ashore but as no carts there & quite a time to walk decided to spend the night on boat. Had just gone to bed when men came with broad flat bottomed boat for us but we got them to wait until morning

Got Pistol out in a hurry!!

Up at 5³⁰. Coffee & rolls. Left in boat. Baggage. Cook. Fred & I & the guide & our Capt. Three Coolies paddled about half a mile & then punted us over the mud. Wading in mud nearly to their waists nearly a mile & here there being a little more water poled us about a mile further. Fishing traps all the way along. Beautiful birds. low trees mostly mangrove along the shores. Landed where there was a camp of natives & soon were in ex carts for a drive about five miles. 3 carts. Ours quite fine. Driver squatted in front & drove with short stick with nail in end. Changed into a fine carriage with two ponies & driver in uniform. Rode through village to Resident's house. Horses ran away with us but by help of men soon started on right road. Resident very cordial as we have

been except Holt man at Pnom-Penh - but he had reason.
Soon reached Bungalow - & as soon as settled spent about 2 hrs. at ruins - Very tired & took bath had dinner & bed early.

Coffee at 7. Then spent over 2 hours on 1st Gallery of Ruins where most of the bas reliefs are, called the Historical Gallery. After lunch Fred went with the guide to the ruins across the river Ta Prohm & another one. which were divided ruins and hard climbing over debris. Had little boy catch butterflies & insects - I rested all the afternoon & felt fine towards night.

About 1 m. to gate & over 2 m. to N. Gate. Ruins not as well preserved as Angkor Wat but in some ways more interesting with its 34 towers with faces on all 4 sides. Bas reliefs cut more deeply. Spent over 2 hours wandering about. Then to the lodge of M. Commaille where we had our lunch & rested until 2 P.M. Then a ride of about 3 miles to Prah~~tchan~~ Khan which we found after a long walk by foot thru the woods, climbing through a breach in the wall & climbing up & down over broken stones all of which had more or less carving. Real ruins these & very fascinating with the elephants. Back about 5 P.M. - Tired but delighted

Coffee at 7. Packed shells & boxes until 10.30. Wrote a few postcards. Lunch at 11. & ready by noon to start but carts did not come. Father got very impatient and finally hired a cart passing to take our things at least partway & we started in carriage about 3.30. Stopped at Residents to pay him & thank him. Then on to next place where we changed into ox cart & waited 1/2 hr. or so for other carts. Then guide took us over a new road very rough but which came out on the beach near our boat. All in readiness & started about 7. Supper & bed.
